Subject: FW: biomarkers for 1,3-BD and benzene

Could you review these papers on one of your next biomarker meetings?

Dear all,

I found two HEI reports which might be of interest for you. They are available on-line (www.healtheffects.org):

HEI Research Report 115: Validation and Evaluation of Biomarkers in Workers Exposed to Benzene in China
and

HEI Research Report 116: Biomarkers in Czech Workers Exposed to 1,3-Butadiene: A Transitional Epidemiologic Study

Best regards and have a nice weekend

Yours
Georg
